The mission of the Chemical and Biomolecular Engineering Department at the University of Houston is to educate students to become highly qualified chemical engineers, conduct innovative research in chemical engineering and related interdisciplinary areas, and provide service to the profession and to society.

Academic Information

Will the University of Houston accept credit from my current or previous institutions?
The University will evaluate transcripts from US accredited institutions and give credit for coursework that is equivalent to UH courses. See Credits and Transfers for more information regarding transfer credit.

I am a current student and want to change my major.
You must meet the minimum requirements for the Cullen College of Engineering and a petition should be submitted. All petitions will be processed at the end of each semester.

- Chemical Engineering Courses
- Fundamentals of Engineering Exam
